

# RAPID FAB

## PIPELINE CRAWLER

### Customer Testimonial

*"I would like to take this opportunity to thank you for allowing us to use this prototype tent. This tent works perfect. It rolls down the pipe simply and travels down the pipe to multiple joints easily."*

*If we save 1 hour a day using this tent versus the traditional fab tents, we are looking at annual savings in the tens of thousands. We would see savings in labor costs and decreased time spent between joints.*

*The project owner was impressed when their inspectors saw that we were covering all welds. This provided optimum welding conditions with an increase to productivity and speed.*

*"Thank you very much, we will be using your products again."*
